

This guide will help you check your DVSA MOT Testing Service profile to ensure your annual assessment result has been uploaded correctly.

Step 1 - login

First thing's first, you need to log into your DVSA MOT profile.

Step 4 – locate your annual assessment

Scroll down the page and look for the annual assessment you have just taken. You'll need to look for the Vehicle Group (A or B) that you passed, the certificate number, date taken and pass score.

Make sure the certificate number on your certificate matched the same as on your DVSA profile. If all the details match, this means your exam result has successfully been uploaded and you do not need to do anything else.
